Sources - County Outlines from U.S. Census Bureau's TIGER line files.

- The National Park Service boundaries were extracted from the statewide land ownership and managed areas maintained by the Montana Natural Heritage Program (NHP).
 - Point locations for Montana's county seats were selected from the U.S. Geological Survey Geographic Names Information System. These are the same as the largest cities in each county, except for Madison County, where Ennis is the largest town and Virginia City is the county seat.
